Profile

I can work independently or as part of a team according to projects I have made alone or with a group.

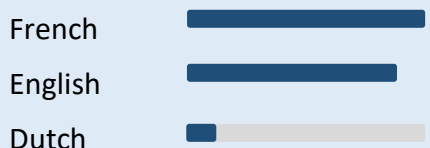

I am motivated and I am a fast learner. Learning new languages does not scare me.

I am a reliable, responsible and a hard working person.

Programming

Languages

Education

2015-2019 Bachelor in business computing
EPFC / ISFCE

2011 CESS/GCSE
Lycee Maria Assumpta

Projects

- Created a secured LAN. **I've setup the routers in Ipv4/Ipv6. The LAN contained a DMZ, a Web Server (Apache) and a Firewall (PfSense).**
- Created a Battleship and Pac-Man game **using Java/Java Fx on NetBeans** in collaboration with 2 other students.
- Created a web shop fully functional with **a database in SQL**, an administration section and a responsive/dynamic interface **using HTML/CSS/AJAX/PHP/JQuery** with one other student.
- Created a parking management application that allow users to manage their cars. The administrator can see all users using the parking and all the empty spaces. The application was made **using JAVA/JAVAFX with Scene Builder / DAO with a SQL database.**
- **End of studies work: Web shop in Ruby on Rail**
- Web management application in **Spring using Spring Tools Suite.**

Work Experience

2014 - Student Job

La Guise – Specialized psychomotricity center for children from 4 to 8 years old. **This job helped me to manage stress and pressure** while taking care of the kids.

Since June 2016 – Sales Associate

Delhaize – As a sales associate, I had to manage the stock and **be professional with the team. I had to speak properly with the client and creating a welcoming environment.**
